Patriot Fireproof long cuff

**Design & Construction:**

**Description:**

The Patriot Fireproof glove is suitable for use in direct fire fighting (flashover, inside attack) as well as recovery, rescue and technical assistance within the meaning of DIN EN 659:2008 (DIN EN 659+A1+AC:2009). The glove insulates against heat and cold. Heat-resistant up to 250°C contact heat. The glove offers a high level of wearing comfort with particularly good grip and excellent protection against mechanical risks. Due to its Hipora insert the glove is breathable.

© by asko GmbH

**Sizes:**

6 - 13

**Colour:**

3200 red, 6001 beige

**Materials:**

**Inside hand, finger joint & knuckle reinforcement, fingertips:**

Kevlar knitted fabric with flame-retardant silicone-carbon coating

**Backhand, cuff:**

Twill fabric made of 100 % aramid (Nomex) piece-dyed with NF seam protection

**Inner layer:**

100 % Kevlar®

**Inner lining cuff:**

100 % cotton flame-retardant

**Insert:**

Hipora membrane, waterproof, windproof and optimum breathability, anatomical, good vapour permeability

**Applications:**

3M Scotchlite reflective tapes in yellow/silver/yellow, reflecting label

**Product instructions:**

**Cleaning:**

For drying hang up on the fingertips.

**Recommendation:**

The use of commercially available cleaning agents (e.g. brushes, cleaning cloths etc.) is recommended. The gloves should be checked to ensure they are intact before being used again.

**Restriction:**

Washing or dry-cleaning should only be carried out after consulting an accredited firm of specialists. For changes to the properties the manufacturer is not able to accept any liability here.

**Service life:**

The service life of glove depends on degree of wear and use of intensity in field of application. There is no possibility to give some information about time of use/service.

**Storage / disposal:**

Store them in a dry and clean place. Furthermore, protected them against light. Damaged or no longer required gloves could dispose in household trash.
